Overview.

Always have an up-to-date directory with *Instant Church Directory*. Think of us as your Do-It-Yourself Directory guide. You enter all your data into one database and the information is generated into a PDF format, and instantly available on the mobile apps and online member directory website for your members.

How you choose to incorporate photos and obtain them from your members is totally in your control. Whether you request photos from your members or take them yourself, our image upload tool makes handling one photo or multiple photos a simple task.

Security.

We use industry best practices for securing and backing up our servers and data, including proactive 24/7 monitoring of our services for possible intrusions. To ensure your directories are safe, we only allow access to members who are entered in the directory, and directories are automatically "wiped" from devices if you remove a member from your directory.

Printing.

We provide you with a High Resolution PDF perfect for printing. You can print the PDF off yourself or send it to a printer to print for you -- the choice is yours. There are no additional fees for the PDF and you can update it as often as you would like.

30 DAY FREE TRIAL.

Gain access for 30 days, absolutely FREE. If you like *Instant Church Directory*, do nothing and your membership will continue automatically after your free trial period is over.

No annual contracts are required, cancel at any time.
